

## Presensoft<sup>®</sup> IM Hosting

Reduce complexity in managing your IM policy with Presensoft IM Hosting. IM Hosting permanently and securely stores all your archived IM conversations so you can maintain compliance with Federal regulations.

### Lower Costs

Allow Presensoft to manage your enterprise IM infrastructure to help provide a speedy Return on Instant Messaging (ROIM)<sup>™</sup>. Additionally, choose Presensoft for your IM archiving requirements or easily export to any third party archiving service.

### Ensure Compliance

After it is received, your IM data is immediately stored and backed up daily. To **ensure the complete integrity of your information**, no one – not even your company's employees – is allowed to delete data.

### Increase Management Efficiency

Combine IM Hosting with our software applications for a server-free enterprise messaging solution. Our system:

- Provides off-site data storage
- Offers seamless upgrades
- Guarantees uptime and availability
- Integrates with all third-party archiving services
- Performs daily backups

### Protect Your IM Data

Presensoft servers are stored at a stand-alone, single-tenant building for improved control and security. IM Hosting:

- Remains constantly monitored by trained IT professionals
- Sends alerts immediately after any undesired changes to the network
- Utilizes video surveillance, controlled access, and onsite security guards

Compatible with IM Clients: MSN<sup>®</sup> Messenger, AIM<sup>®</sup>, Yahoo!<sup>®</sup> Messenger, ICQ<sup>®</sup>, Microsoft Live Communications Server, \*Google<sup>®</sup> Talk, and \*Skype<sup>™</sup>
